FAST HEAT FROM A TIMED CENTRAL HEATING SYSTEM

EXACTLY WHEN YOU NEED IT!

TRUMA - QUIETLY EFFICIENT TIMED CENTRAL HEATING

Combi Range

The incredibly flexible Combi gives you heat and hot water anytime. You can also have the hot water without the heat!

Running on gas or electric this popular Combi system is economical on battery power, so provides great value for money.

- Fuel Efficient - 97% efficiency
- Quiet
- Timed central heating
- Fast heat up time
- Easy to use controls
- Full European service network
- Available in various versions
- Gas and electric can be used together unlike competitor products
- Unrivalled low power consumption
- Environmentally friendly and maintenance free
- Lightweight space saving design
- Heating can be used while traveling if it is coupled with the correct gas regulator set up
- Straight forward gas connection to your existing system
- Easy to install
- Electrical connections are accessible from above
- All warm air connections are easy to access from the rear

For more products in the Combi range, please contact **01283 586050**

Control Panel

- Fully functional timer panel with back lit LCD lighting
- Enables fully programmable heating and hot water just like a central heating system in your home
- You can set the water temperature to suit your needs
- Combined water and heating system
